George R. Hill, Assistant Attorney-General of Arizona, and Mrs. Hill. General of Arizona, and Mra Hill, formerly Mra Edna W. Corbett, secretary to Chief Justice Ross of the State Supreme Court, have returned from Los Angeles, where they were married recently. The wedding was a quiet ceramony witnessed only by a few immediate friends of the couple. Mr. Hill had obtained a viscation leave and laft Phoenix for the Coast, where he was joined by Mra Corbett. The ceremony followed.

Testing of cattle on the experimental farm at the University of Arisona for bovine tuberculosia has been completed by Dr. R. J. Hight, State veterinarian. The tests were made in accordance with a ruling of the State Fair Commission that no cattle be entered at the coming State fair without first having passed the test.

Several of the cattle in the farm herd, including cows and buils, will be entered in the fair stock exhibit by the university farm.

F. L. Andrews, formerly assistant manager of the Hotel Alexandria in Los Angeles, has been selected for general manager of the Adams Hotel here. Mr. Andrews was head clerk before his appointment. formerly Mrs. Edna W. Corbett

HARDING BACKS SAWYER'S ACTS

Will Not Ask Hospital Head to Resign Office

Partisan Motive Thought to be Swaying Legion

President Would Shoulder Responsibilities

BY GRAFTON WILCOX

WASHINGTON, Oct. 24—President Harding is standing squarely behind Brig.-Gen. Charles E. Sawyer, his personal physician, who functions, also, as chairman of the National Hospitalization Committee.

Notwithstanding the attacks upon Gen. Sawyer by the American Legion, the President has no in-tention of asking for the general's resignation as head of the commit-tee. This was stated upon the highest authority at the White House today.

RECORD SATISFIES

Mr. Harding, it was stated, is entirely satisfied with Gen. Sawyer's record as chairman, and believes that the criticisms by the American Legion are wholly unjustified.

Not only does the President regard Q.n. Sawyer as free from blame, but he personally assumes all responsibility for those acts for which the general has been so heartily condemned, it was stated. In the future, the President would prefer to have the criticisms leveled at himself, instead of at Gen. Sawyer.

In the future, the resident would prefer to have the criticisms leveled at himself, instead of at Gen. Sawyer.

Mr. Harding feels, according to White House advices, that the demand for the ousting of Gen. Sawyer is founded, in large part, upon the failure of the Federal government to locate the new disabled veterans' hospital for the Middle West, in or near Chicago, the home of Col. A. A. Sprague, chairman of the hospitalization committee of the American Legion.

It was originally intended to locate it at Camp Custer, Mich. President Harding himself was responsible for this change of plan, it was explaited at the White House today, Virtually all of the soldiers' hospitals in the Middle West we're located in or near Chicago, and the President took the position that other important Middle Western localities should be recognized in the distribution of the hospitalization committee and insisted that the hospital because he thought Michigan should be recognized and partly because he thought Michigan should be recognized and partly because he thought Michigan should be recognized and partly because he thought Michigan should be recognized and partly because he thought Michigan should be recognized and partly because he thought Michigan should be recognized and partly because he thought Michigan should be recognized and partly because he thought Michigan should be recognized and partly because he thought Michigan should be recognized and partly because in this locality the hospital could avail itself of the services of specialists at the Battle Creek sanatoriums.

At the Very Door LOS ANGELES

TRRIGATED vineyards are offered by the Fontana Farms Company as one of the most attractive, the most permanent, the safest, and the surest investments in California.

The Fontana Farms Company, pioneers in agricultural and horticultural development, has made a veritable garden spot out of their immense holdings and offer these irrigated vineyards for sale upon very easy terms, extending over a period of five years.

It is doubtful if land under such high development and irrigated by a water system which alone cost over a million five hundred thousand dollars can be found at the same price in Southern California, There are a very few of these vineyards remaining to be sold and your opportunity, to purchase one is limited. New vineyards to be planted next year will sell for the same price or more than these thriving vineyards are selling for today.

Consider the thousands of visitors to Southern California annually and the thousands who will continue to come to Los Angeles to make their home. Every one of them who enters California by the Southern Route, either by the Santa Fe or Southern Pacific or automobile, all traverse the wonderful property of the Fontana Farms Company. The Santa Fe and Southern Pacific, each with stations at Fontana, the Pacific Electric operating twenty-one passenger trains daily to Fon-tana, hourly and half-hourly motor busses operating over the two paved State highways traversing Fontana and private motor cars make it possible for the many thousands of people to see Fontana and to gain their first favorable impression of the great State of California. Fontana is truly the gateway to Los Angeles.

Do not allow another day to pass without writing for full and complete information concerning this, one of the greatest investment offerings

How Much of Your Money **Burned Up** Last Year?

Last year's fire loss in the United States and Canada was over \$500,000,000. In the past ten years \$1 out of every \$4 spent in new construction has been destroyed by fire.

Each year we burn up enough property to build homes for a city of half a million people — a city as large as Buffalo.

To put it another way, \$500,000,000 would have built over 14,000 miles of concrete roads at \$35,000 a mile, or 5,000 school buildings at \$100,000 each.

Fire loss represents a total loss of natural resources together with loss of time, wages, customers, good will and all the disorganizing effects that follow fire.

In addition fire takes annually an enormous toll of human life.

To drive home the necessity and profit of buildings that won't burn is part of the work of the Portland Cement Association.

Time and time again concrete has proved itself the highest type of fire resistive construction. Concrete buildings command lowest insurance rate. Concrete construction means safety combined with longest life at minimum upkeep. Concrete grows stronger with

The Portland Cement Association is constantly assisting every movement directed toward reducing fire waste through the medium of better building. Our engineers are at all times cooperating with builders, architects and others with a view to reducing fire hazards.

Aiding the work of fire prevention is typical of the daily service of the Portland Cement Association.

Because of The Chicago Daily News' long ablished pre-eminence in the Chicago daily ewspaper advertising field, it is generally recogtions, and therefore peculiar significance and due attach to its advertising lineage figures, which elect the state of the great Chicago market.

It is gratifying, therefore, that this reliable rometer of business in Chicago clearly shows

1922 to be, thus far, another "banner year" with business picking up speed every day.

The following figures, supplied by the Advertising Record Company, an independent audit service maintained by all the Chicago newspapers, give the total volume of display advertising in all Chicago daily newspapers for the third quarter of 1922, and comparison with the figures for the corresponding period of 1921:

	1921 Lines	1922 Lines	Comparison -
The Chicago Daily News .	2,695,183	2,873,423	178,240 gain
The Daily Tribune	2,045,416	2,188,635	143,219 gain
The Daily Herald-Examiner	881,192	913,194	32,002 gain
The Post	923,662	960,534	36,872 gain
The American	-1,687,110	1,631,293	55,817 loss
The Journal	970,452	924,409	46,043 loss

To discriminating and experienced advertisers e is also great significance in the distribution dvertising by important classifications. The res below, supplied by the Advertising Record mpany, show that The Chicago Daily News

maintains its traditional lead in major classifications, again emphasizing the fact that business getters in the great Chicago field consider The Chicago Daily News their most effective medium.

This statement for the third quarter of 1922 shows The Chicago Daily News' leadership in the six day-field in the following important classifications:

street. The two eloped last Thursday morning, going to Banta Ana, where they were married, and returned that evening for the parental forgiveness, and, although there were some objections on account of the youthfulness of the two, this was finally given by the parents.

The bridegroom was a graduate from the Huntington Park Union High School of the class of last June, while the bride was a senior in the local high school, being very talented in dramatics.

Both are popular in the younger set.

Elsie D. Gessner was married to John A. Gessner twenty years. She, too, went away on a visit and when she returned, she found her husband had changed the locks on all the doors. Her keys would not at the locks and he would not admit her. Judge Summerfield gave her a divorce.

The statistician went away with his query unsatisfied.

"Why" he inquired of Peter Real, vetsran elevator man. And Peter replied, "Because."

"Burictly feminine," the statistician declared.

"Mebbe so," said Peter.

Seeks Divorce After Years of Married Life

Revealing a life of misery las Revealing a life of misery lasting forty-one years, in which one of
her children died because her hushand "considered it a waste of monsy to get a doctor," Mrs. Etsle
Hedges yesterday filed suit for divorce against William Hedges. In
her complaint Mrs. Hedges states
that the first eight months of
wedded life was the only time she
did not live in terror.
According to the complaint, the
couple were married in March,
1851. They separated in June, this
year.

Mrs. Hedges says she worked as a servant to provide for the children. Once, it is charged, Hedges fired a shotgun at her, but missed, Another time he felled her with a plane steel, the complaint recites. As soon as she could, she states, the left the house to find work. The complaint was filed by Attorney Ida May Adams.

elaborate program of gun drills,
Larget practice, torpedo defense
practice and all the other activities
that go to keep the officers and
men of the United States Navy
on their toes, the personnel of the
Pacific Fleet is facing a strenuous
period, it was indicated at fleet
headquarters today.

Hardly will the ships of battle
divisions six and seven have returned to their anchorage at Los
Angeles Harbor from San Francisco. Santa Barbara, Monterey
and Santa Monica, following the
observance of Navy Day on Friday, than preparations will be
made for the departure of several
of the fighting ships for various
ports for participation in the Armistice Day celebrations to be held
in coast cities on November 11.

Ships of the seventh division, under command of Rear Admiral
Charles F, Hughes, comprising the
fagship Arizona and the dreadnaughts Pennsylvania and Mississippi, arrived at San Francisco
yesterday to take part in the Navy
Day Celebration there. They will
weigh anchor and sail for their
base at the local harbor Saturday, arriving here late Sunday.

which, in effect, approves entoresment of the Volstead Act by a district attorney.

The fecision was rendered conjointly in two cases of appeal—one by W. C. Case and the other by Tony Matovich—against Judge Spencer M. Marsh of the Superior Court of San Diego county.

They sought a writ of probation to restrain the San Diego court from proceeding to punish them for contempt in that they had violated an injunction.

The District Attorney of San Diego county had sought to close their place of business as a public and commen nuisance, as defined by the Volstead Act.

The contention of the defendants was that the Superior Court had no authority to do this, that it was the function of the Federal courts to define the Volstead Act.

However, Chief Justice Shaw, with the unanimous concurrence of his associates, holds that the Superior Court has jurisdiction in the matter. The online says:

A YFE LAW STREAR

Mr. Fairfax Harrison is the president of the Southern Railway system.

The other important fact about Mr. Harrison is that he has gone to some pains to get out a circular letter calling attention to the fact that he has a yellow streak.

He lacks the frankness to put it in Just those terms, but the point is indisputable. His letter is addressed to "public officials of the South" and informs them that he has agreed with the striking shopmen to take them back with their full senority re-

In other words, Mr. Harrison has cour ageously slipped overboard with the only lifeboat, leaving the American working-men who risked their lives in manning his shops, during the fury of the strike, to face

shops, during the fury of the strike, to moe
the storm alone. Were other railroad presidents of the same calibar every workman
would be forced to join a union or perish.
Having thus repudiated the men whom
he was bound in honor to support, having
turned traitor to principle, having thrown
a bomb into the machinery of the law under which free Americans could safely sell
their labor where there chose Mr. Harritheir labor where they chose, Mr. Harri-son can now sit down and wonder what will be the response the next time he calls upon this same machinery of law to rescue his roads from labor tyranny or violence.

Meanwhile, Mr. Harrison rests in no doubt as to what men devoted to square dealing think of him.

Congressman Thomas L. Blanton has just made public a letter to Mr. Harrison in which he says in part:

which he says in part:

... in thus buying your peace, your system not only committed an act of base ingratitude toward the 7599 Americans who risked their iives manning your shope to enable you to run trains during this crisis and whom, notwith-standing their faithful service, you now kick into the guiter and call them "mercenary strike-breakers:" but it also affects adversely the best interests of every man, woman and child in the whole United States.

The Attorney-General was right when he said that whenever labor unions seriously menaced the destruction of this government it would destroy them. This government must remain supreme. All workers, including Congressmen, must be made to understand that they have a right to their job only so long as they fill it satisfactorily to their employer and when they voluntarily quit the job another labores has the lawful right to fill it unmolested. This anarchy of union laborers are honest, law-abiding, upright men who do not approve of the lawlessness in their unions but they have n volce and are powerless to stop it.

most assumes the proportions of a bloodless revolution. The cou-lition bastile has fallen. The

advice of their veteran leaders, carried it by storm. But, now that they have captured it, the question arises, "What are they going to do with it?"

Bonar Law is the Premier; but, if he were to go before Parliament tomorrow with a government would probably be overthrown on the first vete. Recognizing this, he has announced an immediate dissolution of Parliament and a general election. The mandate of government is still in the hands of the electorate of Great Britain. They will deposit that mandate in the ballot box on November 15. But for Whom? The Conservatives are in a minority in the House of Commons; whether they are in a majority in the country, the election will decide.

A Prime Minister unsupported by a majority in the House of Commons is what the English term a "stop-gap."

Frankly, I can see but a faint hope for him to secure a majority in the coming elections. There are too many elements and too many men in whom the British popile repose confidence against him. Lloyd George is an astute politician. While sometimes permitting his reckless courage to carry him so far that he has to walk back, he has made few mistakes in judging the temper of the British public. He did not precipitate the present election crisis to contribute to a Conservative victory.

The British populace honors Lloyd George for his courageous resistance during the darkest days resi

of the month. All hands round.

No wonder the striking railroaders objected to a "bianket injunction" in Southern California. It was a bit warm without the blanket.

Ass G. Candler, Sr., was smart enough to make a fortune on a popular drink, but he was not sufficiently clever not to write any letters to that New Orleans widness.

The Fountain of Youth

Did you ever ride in a street car with someone near by carrying home a bag of ground coffee? The wonderful aroma that it gave off made you hungry for a cup of it too. That was the flavor, the real life of the coffee passing into the atmosphere. Think of it, paying a good price to get a quality coffee and then losing much of what you pay for-fla-vor-simply because it is not packed right.

When you buy Hills Bros. Coffee you receive all the strength and aroma that was in the original coffee, for the Vacuum Process originated by Hills Bros. keeps all the flavor in. This Vacuum Process is a figurative "Fountain of Youth" for coffee packed by the method retains its original freshness and flavor for an indefinite period. There is nothing magicabout the method. on the contrary, it is quite simple.

Coffee becomes stale on account of the oxygen in the air oxidizing the essential elements that give coffee its delicious flavor. Under the Vacuum Process the coffee is packed in air-tight cans from which the air is withdrawn-preventing all deterioration. Hills Bros. originated and use this method as it insures the purchaser of receiving the fine, rare coffee of which "Red Can" is composed, in as perfect and fresh condition as when leaving roaster.

Film-the great enemy

Modern research proves that most tooth troubles are caused by film. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste does not effectively combat it, so old-way brushing left much of it intact.

Film absorbs stains, making the teeth look dingy. It forms cloudy coats. Tartar is based on film. It holds food substance which ferments and forms

Dental science, after long research has found two ways to fight film. One acts to curdle film, one to remove it, without any harmful scouring.

Able authorities, by careful tests, have proved these ways effective. Now leading dentists the world over are advising their daily use.

A new-type tooth paste has been created, to comply with modern requirements. It protects the teeth in five new ways, now known to be essential. Those two great film combatants are embodied in it. The name of that tooth paste is Pepsodent.

STANFORD UNIVERSITY, Oct. Art Garer, all-conference full-back last year, and the mainstay of the Occidental backfield so far this season, is out of the game with Whittier next Friday with a dislocated shoulder, and may not be able to play again this season. Yesterday he was ambling around the Tiger institution with his arm in a sling.

The husky Tiger line plunger injured his shoulder in the first half of the game against S.B.U.C. last Saturday, and was dragged to the side lines to have it looked over. The game was so close that he wanted to stick it out, and he was allowed to continue, but was shifted to defensive half-back, Ridderhoff backing up the line in the second half.

Garey played a great game dur-

side lines to have it looked over. The game was so close that he wanted to stick it out, and he was allowed to continue, but was shifted to defensive half-back, Ridderhoff backing up the line in the second half.

Garey played a great game during the second half.

Garey played a great game during the second half, also, but on Sunday his shoulder pained him so badly thar's doctor was called in, and the result was an X-ray and a sing. There is some possibility that the big boy may get back in the late games of the season, but he is counted out of the Whittler and U.S.C. contests.

With Garey out, Occidental is feeling very low as regards the prospects of beating Whittler Friday. Ridderhoff will be shifted over to fullback and Ebers will take his place at half. Pipal is still shuffling his guards around, and Davidian, Goodenough, Johnson and a flock of other young men of great earnestness but little weight or experience are battling for the job.

The Tigers are feeling particularly dismal over the fact that Suggett. Was a star on the Whittlet team last year, being a particularly dismal over the fact that Suggett's dusk by team-mate. Recently we ventured the guess that the statement that Los Angeles High School once defeated California, bringing the State championship south for the first and last time would result in some negative votes being cast. It was a correct guess. First negative vote is east by W. Bruce Kirkpatrick, who I believed starred in athletics at Occidental some years ago.

He points out that the Tigers, coached by W. L. (Fox) Stanton, now at Caltech, and with Ralph Deems as captain, went through the season of 1916 without a defeat, including a win over California by a score of 14 to 13.

Statement to the effect that the Coast League as a whole totaled receipts of only \$5000 over the aggregate for 1921 is something of a pursier and somewhat surprising.

One would think that the increase in population in Los Angeles alone would boost the receipts to esferal times that amount. This is \$13,000 issue than the bonus distributed among the first seven clubs. There were some bumper crowds here and in San Francisco, and the latter city claimbud to have set a new mark for total minor-league attendance in a single season. Also, Portland played to a couple of immense mobe on its opening day at home and the Sunday fellowing. Probably the surprise which the statement occasioned here is due to the fact that this is one of the creamy spots of the league. Crowds are said to have averaged small in Oakland while there was a falling attendance in Sacramento, Sait Lake and Seattle. Los Angeles, San Francisco and Portland were strong enough at the turnstile to more than offset the vicissitudes experienced in the less fortunate cities. In fact, Portland's increase alone, due to early interest created by the expensive club which Klepper placed in the field, probably would account for the added \$5000. Had the Portland organisation not been wreaked early in the season, chances are that the league receipts would have shown an increase of nearer \$50,000.

would have shown an increase of nearer \$50,000.

Two unsuccessful road trips, and particularly the one extending through the latter part of June into July, put Los Angeles out of the running. Had the Angels played the same brand on the road they did at home it would have been a breeze.

Nobody ever has been able to successfully explain these road slumps, particularly as the Angels in past years had been regarded as a good touring organization. The natural hypothesis was that they must be a loyride club when away from home. Joe Patrick says such was not the case. In fact, a newspaper man who made a trip with with the team complained hitterly that he wasn't able to start even one poker game because the athletes were so early in the feathers.

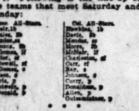

"Your theory that the boys suffered from lack of home cooking seems to be the only explanation," declared President Joe Patrick. Club next season on road may carry full equipment of utensils for light housekeeping and insist that the better haives go along.

Might have the wives put up enough basket lunches to last athletes on a three weeks' trip and in that way keep their percentages from falling away to a shadow through lack of proper nourishment.

Time is the essence of this age—and Barbasol comes into the picture as one of the important, modern time. the important, modern timesaving factors.

What is Barbasol?

Barbasol is just what its name in-dicates: Barb-beard; sol-short for solvent; beard solvent, taking

But Barbasol is more than merely the modern, effective beard sof-tener. It is both beard softener and beard stiffener. For, while the emollient content of Barbasol re-duces the resistance of the beard's texture, the film of Barbasol spread over the face, filling the tiny areas between the hairs, holds each hair upright—so that the razor cuts straight through.

How to use Barbasol Barbasol means comfort during

A million men used Barbasol this morning, saving more than twenty years in a day

A million men this morning and new thousands every day are experiencing the comfort, ease and swiftness of shaving with Barbasol—with an average time saving of 10 minutes per man, a total of twenty years per day, formerly spent in lathering, rubbing in and preparing the beard.

Give yourself a fair trial of Barbasol, Send 10 cents and Get this week's trial tube

The generous trial tube of Barbasol contains sufficient for a week's shaving of the average beard. Do not start with a prejudice. Do not pre-judge Barbasol by any other preparation. The Barbasol idea is not new. Barbasol results are new. It is not easy to disturb the habits of a lifetime. That is why we provide a trial tube. Follow instructions carefully; most important of all, be sure the face is thoroughly wet before applying Barbasol.

Dr. Palmer happened to know Senator Bell never had a daughter so he asked the men to return later and then he called the police.

ELEVEN INDICTED BY FEDERAL GRAND JURY

This Bedroom Suite Shows Results Of Our Care In Selection

Our entire effort is devoted to furnishing homes-no other business is nearly so attractive to us-that is why we secure men with wide experience in furnishing fine homes and provide them with adequate equipment.

Our buyers are constantly in the world's greatest markets, searching for the newest and best in styles and values. It keeps them busy, too, for they must maintain an assortment for our ten floors that approximates a yearly retail value of more than a million dollars.

Much of our business is done in the kind of high grade furniture you see pictured above. That is one of the reasons why we can sell it at economical prices. This fine bedroom suite is con-structed throughout of genuine mahogany with finely figured burl and crotch panels. Real inlays of ebony and satinwood, too fine in detail to show in the cut, add distinction as do the "sleigh" ends of the bed with their dainty hand painted escutcheons. To see this suite is to admire it and marvel that it could be sold at so reasonable a price.

A NEW VERSION OF THE MORNING DRESS

A morning dress is no longer considered a dress in which you would probably scrub the floor but rather a pretty colored frock that you could wear on the street to market or for a morning walk to market or for a morning walk on your vacation. Just such a dress is shown, that would look well in chambray, gingham, Japanese crepe or the very fashionable cretonne. And think of it, all the completed garment would cost if you made it of cretonne @ 30c per yard would be about \$1.00.

There are People who don't know what direct advertising is

In Cincinnati, October 25 to 27, inclusive, the Direct Mail Advertising Association will hold a convention which 2500 advertising managers and printers are expected to attend. The formation of this Association and the sessions of its worth-while conventions are a logical outgrowth of the increasing appreciation of the value of direct advertising and of the part that good prining plays in making sales.

"Direct advertising" is a short way of saying "Directby-mail advertising.

It means any kind of advertising that is mailed to the persons who are to see it.

Direct advertising includes: Letters, folders, catalogs, circulars, booklets, broadsides, postcards, announcements—any printed or written advertising that is mailed to its readers.

Direct advertising works unseen except by those who are particularly expected to see it.

Yet the growth and development of this phase of advertising has been swift and fast. More than one-third of all advertising that is done, is done directly by mail from the advertiser to his individual prospects.

fect blending of the instruments, a fault to be ascribed perhaps to the intonation in the string section. As a whole, though the work was very pleasingly given.

A composition by Joseph Jongen, the Beigian, was introduced as one of two shorter numbers. Modernistic in mode, it bears the title of "Serenade Tendra." It presents a vista of rich color harmony, with "tenderness" that is decidedly vigorous—in fact, well-nigh exvemanish. A very interesting novelty this. The Orientale by Glasounow is of somewhat the same genra, although much less ultra.

The "Emperor" quartet by Haydn was presented in the sincere manner in which the Zoellners give the classica. It had brightness and beauty.

The note of novelty in their programs is one that is particularly attractive, and it is to be hoped that they will offer more like this first.

Following the San Francisco engagement, Mr. Washburn will appear at the Orpheum here, and his many friends are preparing to present a solid front of approval on his opening night.

Mr. Washburn won't be entirely separated from his family, as his wife, Mabel Washburn, is to have the feminine role opposite him. Mrs. Washburn is a beautiful young woman whose looks deserve that the world shall appreciate them. The small Washburn sons are to be left in care of their grandparents here. Oscar Briggs will have the third role in the piece.

Moreno Budy's Successor?

Moreno Rudy's Successor?

Moreno Rudr's Successor?

Everything points to the grooming of Antonio Morene as the successor for Rodolph Valentino at the Famous Players-Lasky studio. This much, at least, for certainty, Moreno has a highly nicturesque role in the production of "My American Wife." In which Gloria Swamson is starred, and the understanding is that he may appear in another picture following this. None other, in fact, than "The Spanish Cavaller." in which Valentino was to have been featured.

Ground Gripper Shoes Remove the "Ouch"

und Gripper Shoes are made to prevent the impatience and nervousness arising from feet that pain.

It is too much strain on self-control to re-main calm when you are suffering tortures from shoes that go against all the laws of Nature and squeeze and cramp the foot and make every fearsome step an agony.

With comfort-giving Ground Grippers your feet receive permanent relief. Why try to squeeze feet into shoes that thwart Nature? Ground Grippers follow the lines of the foot —outward swing, inside straight line—just as Nature intended.

HERE'S HOW

Say It With a Post-card and He Can't Urive Wrong; Ask Col. Laub

Col. Henry Laub, chronic Angeleno, has returned from a four months tour in Europa.

"The .toughest nut to erack of the whole show is the Paris cabby." he reported yesterday at the Clark, where he is stopping. "He is a wonder at bringing you where you don't want to go. But I got the best of him.

me to the Louvre Galleries, he would take me to the Louvre Department Store. When I saked him in my best French to take me to Napoleon's tomb, he took me to the Pantheon. I always wanted to see Napoleon's tomb. "But I got the best of him. I went and bought a pack of picture post cards, views of everything worth seeing in Paria. And-then I picked out the card representing the place I wanted to go. And I held this card in front of M. Cabby and got in. He took me there. That's the way I saw Paris, and believe me, I saw it all. I had a stack of post cards that thick." and Col. Laub held his palms five inches apart.
